

Audit and assurance

Parker Russell: compete auditing and assurance services

Our expert auditors produce annual audits and assurance reports in accordance with statutory compliance, with extensive experience from working with a wide range of clients, from SMEs to larger, more complex organisations, and involved in a wide range of activities.

This why our people understand that every client is different and that we must tailor our services to each individual business as well as to the nature of their activity.

Treating each client as an individual

We work closely with clients to gain an insight into how they operate. This gives us a basis for the advice we deliver as part of our service, empowering our clients to move forward in building strategic ideas for developing their business.

Based on our audit, we can offer sound, relevant and timely commercial advice to support planning and to help clients seize opportunities. We also help to protect businesses from risk by offering practical and realistic recommendations for solving any problem they may currently be experiencing, or which are emerging on the horizon.

Our clients benefit from our proactive approach in anticipating problems which may arise, avoiding unpleasant surprises and working closely with them in order to improve areas of concern within their operation.

Your partner at every stage of the process

We take care to maintain a two-way communication with our clients at every stage of the audit process, keeping everyone fully engaged and updating key stakeholders with any changes in legislation or new requirements that could impact on their organisation.

We keep clients informed of our progress and key timings and deadlines through regular updates and at the end of the process the result of this close collaboration is an accurate and honest report of all our findings.

These findings include any areas for improvement for greater efficiency and cost savings as well as practical recommendations for measures to improve the effectiveness of accounting controls and procedures and the quality of the client's financial reporting.

How we can assist you

We offer clients the complete range of audit and assurance service, including:

- Financial accounting
- Financial statement audit
- Regulatory reports
- IFRS reporting
- Internal audits
- Assistance on capital market transactions
- Specialist pension fund audits
- Specialist charity audits
- Grant audits
- Independent examinations
- Independent controls and systems process assurance

The Next Step
